Had this mower a couple of years now, just passing 70 hours. Do my own maintenance, just followed the guidelines in the manual and kept the machine clean. Seems to work fine, starts and mows as expected. It has done a bit of tractor work pulling a small trailer around loaded with rocks and gravel with no complaint. Mows about 2 acres. So far it feels like if you do the maintenance and don't do stupid things with it, it should be OK. Deck is dead simple to remove, a few minutes to remove a belt guard and then pull 3 pins to drop and...Read more remove. Service parts like filters seem expensive but I have started using an automotive 2418 oil filter at about a third of the cost, and am looking at buying air filters from overseas as the supply chain here is just a bit greedy. Similar opinion? Write a review on ProductReview.com.au! Average Ratings Performance Reliability Safety Overall Satisfaction The Cub Cadet LTX1042 lawn mower is a little bit more powerful than the Cub Cadet LTX1040 lawn mower as it has a Kohler engine that produces 20 hp in power output which is identical to the power output of the Cub Cadet LTX1045 tractor lawnmower. This engine transfers power to the wheels via a hydrostatic transmission that makes the LTX1042 an automatic. This means that no pesky gear changes are needed! You just need to press down further on the speed pedal to speed up or ease off it to slow down. The engine is key started using a 12 volt battery. Unfortunately though, the LTX 1042 does not have power steering, just manual. The Cub Cadet LTX1042 lawn mower has a digital clock that registers how many operating hours it has. This is a fantastic tool to properly gauge when next to service it. The mower deck on the LTX 1042 has a 42 inch cutting width and has 1 wheel located approximately at each corner to prevent the deck from scraping the ground when the mower deck is particularly low. The deck on the Cub Cadet can be lowered to within 1.5 inches above the ground and raised in 0.25 inch increments so that it's 4 inches above the ground. The Cub Cadet LTX1042 is a new model and as such has a whole host of features that make it far safer to operate than previous models. The engine can only be started when the LTX 1042 is in neutral and if the driver leaves the seat of the mower, the engine will cut out. Like many Cub Cadet lawn mowers, there is a huge range of compatible implements that can turn the lawnmower into a multi purpose machine. There is a 42 inch snow blower that can be attached as well as rollers, carts and sprayers. Return to Cub Cadet from Cub Cadet LTX1042 Cub Cadet LTX1042.3437532 Have Your Say!
